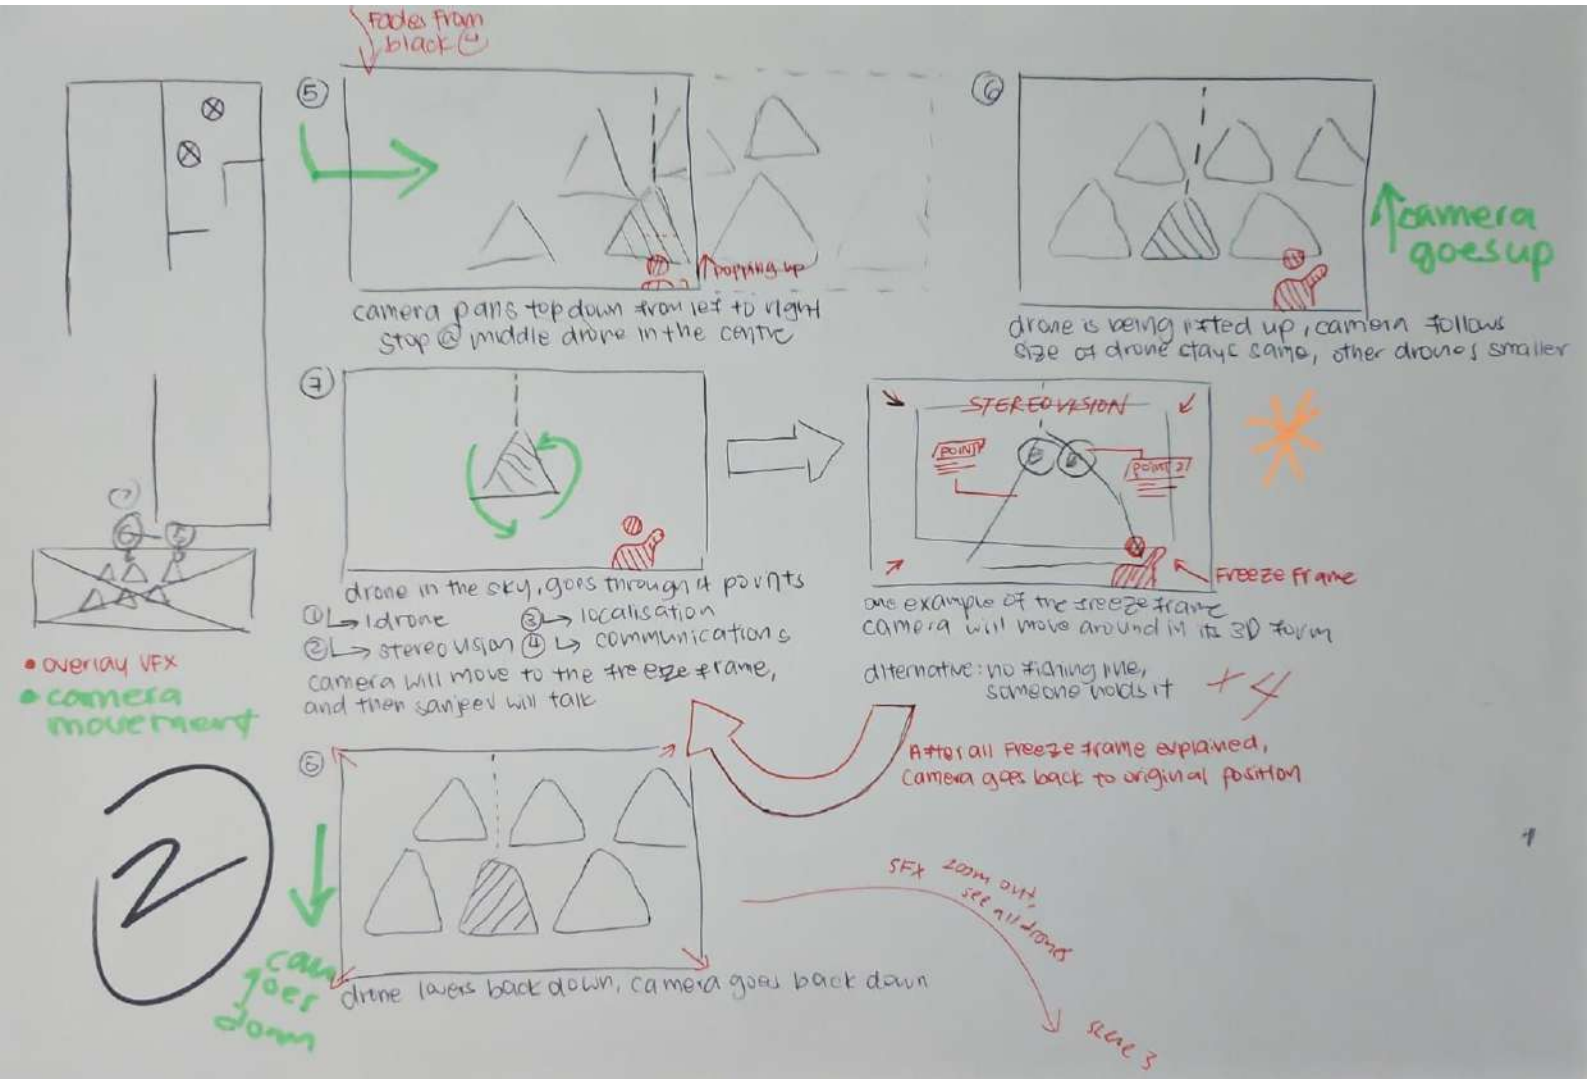
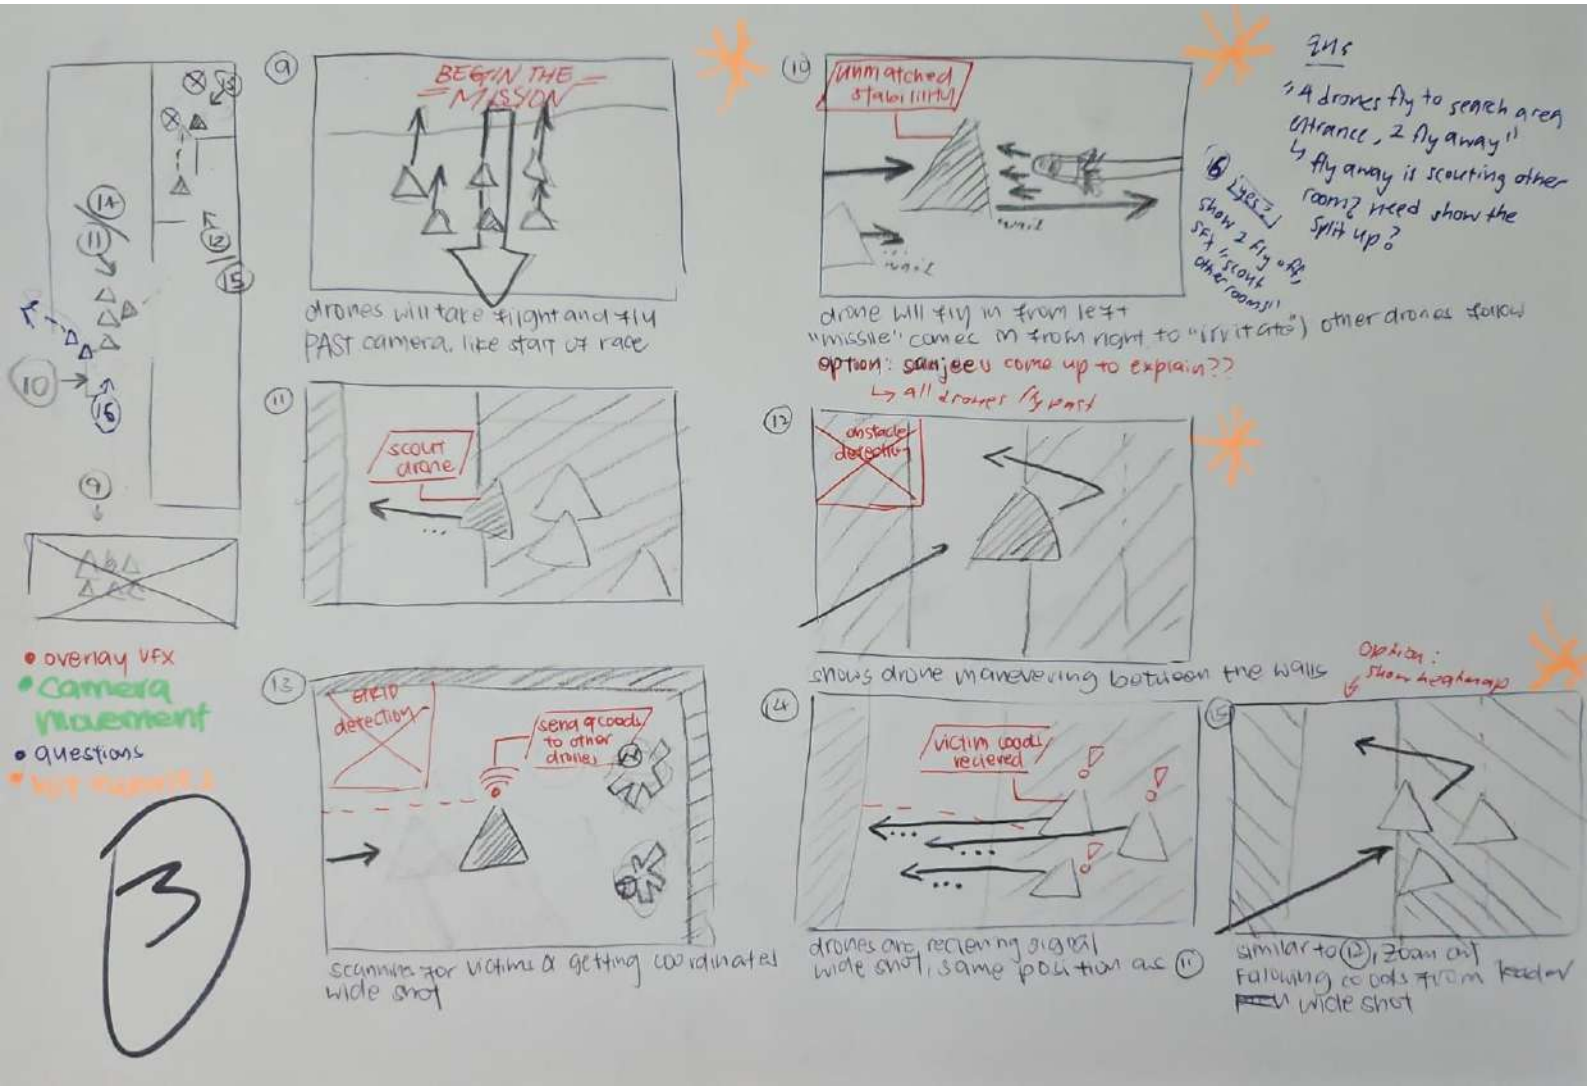
layout of set up
DRONE HOSTAGE
walk close with cam
setting the scene: starting in xbox zone, walking in one continuous shot of layout
MISSION BRIEFING
continuing to walk in
zoom out
VICTIM 1
VICTIM 2
back wards
continuing to point 3, turn 180 to face victims
MEET THE RESCUERS
moving into 2nd scene: introducing drones (diagonal top down view)
SFX
rapid zoom out
+ motion blurs dissolve
time warp-ish
SFX
Fade to black
+
glitch effect (?)
scene 2

1



Fades from black
5
camera pans top down from left to right
stop @ middle drone in the centre
popping up
6
drone is being lifted up, camera follows
size of drone stays same, other drones smaller
camera goes up
7
drone in the sky, goes through 4 points
① → 1 drone
② → stereo vision
③ → localisation
④ → communications
camera will move to the freeze frame,
and then sanjeev will talk
STEREOVISION
point
point 2
Freeze frame
one example of the freeze frame
camera will move around in its 3D form
alternative: no fishing pole,
someone holds it
After all Freeze frame explained,
camera goes back to original position
overlay VFX
camera movement
2
6
drone lowers back down, camera goes back down
camera goes down
SFX zoom out, see all drones
scene 3



9
BEGIN THE MISSION
drones will take flight and fly PAST camera, like start of race

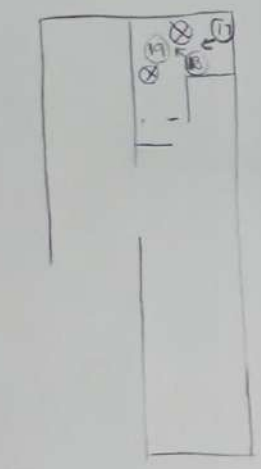
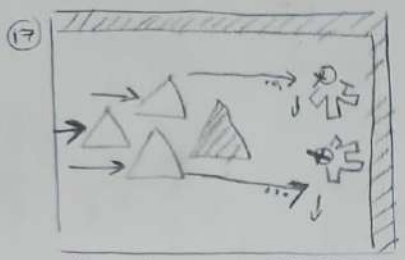
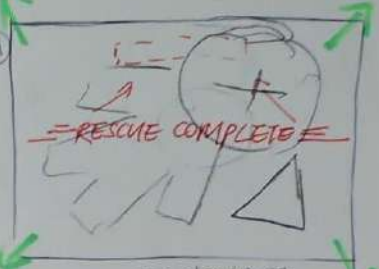
questions
3
11
scout drone
...
12
obstacle detection
shows drone maneuvering between the walls
13
AR ID detection
send coords to other drones
scanning for victims & getting coordinates
wide shot
14
victim coord. recieved
drones are recieving signal
wide shot, same position as 11
15
Option: show heatmap
similar to 12, zoom out
following cobots from leader
wide shot
10
unmatched stability
drone will fly in from left
"missile" comes in from right to "irritate") other drones follow
option: sanjeev come up to explain??
↳ all drones fly past
(yes)
show 2 fly off, set "scout other rooms"
2nd
"A drones fly to search area, 2 fly away"
↳ fly away is scouting other rooms? need show the split up?





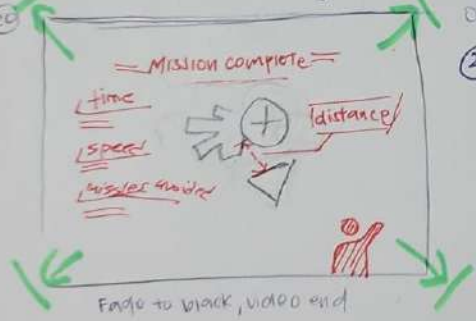
other drones fly into frame
2 drones fly to the 2 victims
and start descending

drones fly in from top and land
the victims, larger victim in focus, smaller
victim blurred.
option: extreme close up of one body

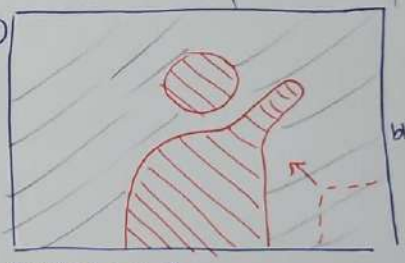


decide

top down of
victim & drone



Fade to black, video end



blur background
